Schedule 2: Conditions Schedule

- 1 The authority holder must notify the chief executive within 48 hours of the following significant changes; (a) a person deals with an animal or moves an authorised animal outside of an authorised enclosure due to necessity to prevent or minimise a relevant risk or relevant adverse effect associated with exhibiting or dealing with the animal, (b) a person deals with an animal in a way that is not authorised under this authority. If the authority holder gave notice by telephone and the chief executive has not confirmed the notice within 48 hours the authority holder must give notice in writing within 48 hours. A serious incident is defined under section 80 of the Exhibited Animals Act 2015.
- 2 The authority holder must not breed an animal of a species unless the breeding is in accordance with the approved management plan for the species and the relevant person has an approved type of regular enclosure for Category A species and an approved regular enclosure for each Category B or C animal of a species.
- 3 The authority holder must notify the chief executive of a serious incident relating to an authorised animal immediately after the holder becomes aware of the incident; the notice must be by written notification or by telephone. If the authority holder gave notice by telephone and the chief executive has not confirmed the notice within 48 hours the authority holder must give notice in writing within 48 hours. A serious incident is defined under section 80 of the Exhibited Animals Act 2015.
- 4 The holder of this authority may apply to the chief executive for renewal of the licence no earlier than 6 months and no later than 3 months before the term of the licence ends.
- 5 The authority holder must not exceed the maximum permitted quantity of animals of a particular species recorded on this authority.
- 6 When exhibiting and dealing with an approved animal under this authority, the authority holder must at all times, ensure a copy of this authority, in its entirety, is available for inspection if requested by an inspector appointed under the Exhibited Animals Act 2015.
- 7 If an animal authorised under this authority is authorised to be exhibited or dealt with outside an authorised enclosure, whether inside or outside a controlled area, the animal must be under the immediate control of a responsible person for the animal whilst it is being exhibited or dealt with.
- 8 Whilst conducting exhibition activities under this authority off the regular enclosure site, the authority holder must ensure the exhibition notice stating the authority holders name, contact details and term of authority, is displayed in a prominent place and visible by the public at all times.
- 9 An animal authorised under this authority may be exhibited and dealt with only in a way that is approved by this authority, the approved management plan and the requirements of the Exhibited Animals Act 2015.
- 10 The authority holder must ensure that each enclosure housing an authorised animal has a sign on the enclosure, in a prominent place, which states the common name and scientific name of each species held within the enclosure.
- 11 An animal of a Category B or C must be identifiable in the prescribed way if exhibited outside its regular enclosure at the regular enclosure site or outside the regular enclosure site as prescribed by the Exhibited Animals Regulation 2016.
- 12 Authorised animals exhibited permanently in a regular enclosure at the regular enclosure site which are of a Category B (excluding dingo or rabbit) or C must be identifiable in the prescribed way or in another way that effectively identifies the animal as a particular animal.
- 13 The authority holder must give notification of the loss of a record required under the Exhibited Animals Act 2015 as soon as practicable but no later than 7 days after the loss. Loss includes destruction, theft, damage, illegibility or if electronic, inability to reproduce the record.
- 14 Records required to be kept must be kept in accordance with the timeframes set out in section 17 of the Exhibited Animals Regulation 2016.
- 15 An animal authorised under this authority must, to the greatest extent practicable, have the use of the entire enclosure in which it is exhibited or kept.
- 16 No animal may be exhibited or dealt with in an authorised enclosure under this authority other than an animal authorised to be exhibited and dealt with under this authority.
- 17 An authorised animal with visible signs of serious illness or injury may be exhibited only if information about the nature and cause, or suspected nature and cause of the illness or injury is made available to persons viewing the animal.
- 18 Each particular authorised animal or animal of each species of authorised animal must be supplied with an authorised enclosure or type of enclosure suitable for the animal's use.
- 19 An occurrence of serious aggressive behaviour of a particular authorised animal must not be disclosed to members of the public for advertising, marketing or promotional purpose.
- 20 The reproduction of an authorised animal Category A, B and C must be managed in accordance with the approved management plan.
- 21 The authority holder must make written record of the information mentioned in schedule 2, part 1 of the Exhibited Animals Regulation 2016 for each species authorised under this authority.
- 22 If an animal is authorised to be exhibited or dealt with in premises or a part of premises used for residential purposes and occupied by the authority holder, the holder must consent to an inspector entering the premises or part (at any reasonable time but on written or oral notice off at least 1 hour) to inspect an authorised animal or enclosure to monitor compliance with the Exhibited Animals Act 2015.
- 23 The authority holder must make written record of the information mentioned in schedule 2, part 2 of the Exhibited Animals Regulation 2016 for each particular animal of a species authorised under this authority.
- 24 The authority holder must keep all records of required information for an authorised animal at each regular enclosure site for the animal.
- 25 Each regular enclosure site under the licence must be located at premises of which the licence holder is the occupier.
- 26 Whilst conducting exhibition activities under this authority at the regular enclosure site, the authority holder must ensure the exhibition notice stating the authority holder's name, contact details and term of authority, is displayed in a prominent place visible by the public.
- 27 An authority holder who sells or gives an authorised animal to a person must ensure all required records relating to the animal are given to the person on transfer of the animal.

- 28 A Category C2 animal may only be exhibited outside the regular enclosure off the regular enclosure site in accordance with the details set out in the approved management plan and the approved Special Exhibition Permit conditions.
- 29 Each approved regular enclosure at the regular enclosure site must remain at the regular enclosure site, unless otherwise authorised under this authority or in accordance with the approved management plan.
- 30 An authorised animal must remain in its approved regular enclosure at the regular enclosure site, unless otherwise authorised under this authority or in accordance with the approved management plan.
- 31 An authorised animal must be kept under this licence for at least 1 month, unless the chief executive gives written approval for the earlier disposal of the animal.
- 32 For authorised Category C species, at least 1 authorised animal of each species must be exhibited for a combined total of 50 hours in each calendar month. To be counted as 1 hour towards meeting exhibit requirements on a particular day, the exhibit must be a minimum of three consecutive hours.
- 33 For authorised Category B species, at least 1 authorised animal of each species must be exhibited in each calendar month.
- 34 The display of an animal at a private event must not be recorded as part of the minimum exhibition requirements
- 35 A responsible person for the authority, who records an animal's image in accordance with the approved management plan, must not include the recording time as part of the minimum exhibition requirements unless the recording is by way of filming for film or television production in the form of a story, narrative or documentary.
- 36 For the recording of individual exhibition requirements, animals must be displayed on separate occasions to an audience not consisting substantially of the same people.
- 37 Subject to section 13 (2)(b) of the Exhibited Animals Act 2015 an authorised European rabbit (*Oryctolagus cuniculus*) must be desexed as soon as practicable if obtaining as an adult or no later than six months of age if obtaining as a juvenile.
- 38 Authorised animals Category B rabbit (*Oryctolagus cuniculus*) must be identifiable in the prescribed way as prescribed in the Exhibited Animals Regulation 2016.
